Interim Report January – September 2024 Summary of Results

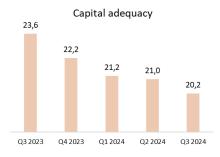

Q3 2024 in comparison with Q2 2024

- Net profit EUR 34.1 m (EUR 34.8 m), of which EUR 34.8 m (EUR 34.7 m) is attributable to owners of the parent
- Net income EUR 69.8 m (EUR 68.8 m)
- Operating expenses EUR 22.8 m (EUR 23.2 m)
- Impairment losses on loans and bonds EUR 7.1 m (EUR 4.9 m)
- Income tax expenses EUR 5.7 m (EUR 5.9 m)
- Return on equity 25.2% (27.6%)
- Capital adequacy 20.2% (21.0%)

Q3 2024 in comparison with Q3 2023

- Net profit EUR 34.1 m (EUR 36.0 m), of which EUR 33.9 m (EUR 35.7 m) is attributable to owners of the parent
- Net income EUR 69.8 m (EUR 65.5 m)
- Operating expenses EUR 22.8 m (20.5 m)
- Impairment losses on loans and bonds EUR 7.1 m (EUR 2.8 m)
- Income tax expenses EUR 5.7 m (EUR 6.2 m)
- Return on equity 25.2% (30.3%)
- Capital adequacy 20.2% (23.6%)

The calculated capital adequacy is in line with COREP.

The return on equity ratio is based on the profit and equity attributed to the owners of AS LHV Pank and do not include any non-controlling interest.

Business activities

During the quarter, the number of the bank's clients grew by more than 11,000. New clients were added at a solid clip and clients' activity level was high. Deposits grew by EUR 257 million over the quarter and loans were up by EUR 160 million.

Ordinary clients' deposits increased by EUR 174 million during the quarter and financial intermediaries' deposits by EUR 52 million. The financial situation and savings capacity of households has started gradually improving, but recovery will take time. The annual growth of households' deposits in Estonia reached to 8.7% and corporate deposits to 1.6%. Still, the growth rate is clearly less than the long-term average and the growth is not broad-based. The goal is to attract deposits from the Estonian market, and this effort was successful in Q3, but due to faster loan portfolio growth, we also increased deposits attracted via platforms by EUR 92 million. Deposits remain in the focus.

Loans to businesses grew by EUR 47 million and retail loans increased by EUR 113 million. Lending activity has remained solid despite the slumping economy. The annual growth of the business loan portfolio in Estonia was 7.2% at the end of August while domestic households' loan portfolio grew 7.6%. The growth of businesses' loan portfolio has shown signs of accelerating in recent months. We are outpacing growth on the market; our market share of new loans to businesses is close to 30%. In addition, the strong result is also due to the continuation of the home loan refinancing campaign and the general activation of the home loan market, which also keeps new applications coming in. September marked the start of the student loan issuing period.

Net profit for the quarter was EUR 34.1 million. The strong result in Q3 was mainly impacted by higher interest rate income, due in turn to larger than planned volumes in the loan portfolio. The growth in interest income will slow since the expenses paid on deposits are growing faster. Service charge income fell short of planned levels, mainly due to profit shared with the UK bank, while expenses were as planned. Since we outperformed planned results significantly, we updated the financial plan at the end of Q3. Loan impairments grew somewhat during the quarter. The environment is still fragile and Q3 also saw model-based forwardlooking impairments. In addition, impairments were also affected by changes in ratings of individual clients. There were also movements in the positive direction, which levelled the results. As a whole, the bank's loan portfolio quality has remained strong and the share of overdue loans continues to be low. We see increase in arrears in consumer loans, but the levels are reasonable and consistent with expectations.

We entered into a contract of sale with TBB Pank for part of the loan portfolio. At the time of the signing, the portfolio being purchased was EUR 36 million, which may go down to EUR 25 million. The transaction will be completed by late October.

In August, we launched a comprehensive offer aimed at apartment associations, which combines a convenient payment solution, insurance and financing at low rates for investments into energy efficiency. The offer has been very well received.

We took part in organizing a 200-million-euro Estonian government bond issue. Held in early September, it drew institutional investors and more than 7000 retail investors and was oversubscribed four times.

The internship summer, highly popular among young people, came to a close. This summer, 31 interns worked at LHV. Besides their everyday work, they attended workshops where they learned more about their strengths, the history of LHV, investing and pensions, job-seeking and LinkedIn and Youth Bank. As part of Book Club they also read the LHV book Pangasaladus. Grouped into teams, interns presented projects for making LHV even better.

Instar's job expectations and employer reputation survey found that LHV Pank was seen as the most attractive employer among experienced employees, youth and economics students. LHV placed third among IT students.

Financial Summary

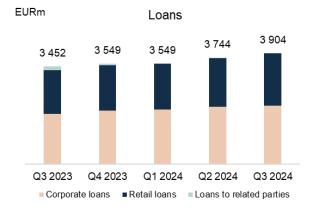

LHV Pank earned net interest income of EUR 60 million and EUR 8.7 million in net service fee income in Q3. Net financial income amounted to EUR 0.6 million in Q3. In total, the Bank's income was EUR 69.8 million and expenses were EUR 22.8 million. Net income rose by 7% and expenses increased by 11% over the year. The discounts of loans and bonds amounted to EUR 7.1 million in Q3. We made forward-looking specific and general discounts. We are keeping a very close eye on developments in the credit portfolio

LHV Pank accounts for and recognises in expenses a 14% advance income tax which was EUR 5.5 million in Q3. Income tax expense on future disbursements of dividends by subsidiaries at the consolidated level was EUR 0.3 million in Q3.

The Bank's Q3 profit amounted to EUR 34.1 million, which is 2% less than in Q2 2024 (34.8) and 5% less than in Q3 2023 (36.0).

Income from settlements, currency exchange and investment services contribute the most into service fees.

The total volume of the Bank's loan portfolio reached EUR 3 904 million by the end of Q3 (Q2 2024: EUR 3 744 million). The volume of loans grew by EUR 160 million in Q3 (Q2 2024: a growth of EUR 194 million). The net retail loan portfolio grew by 7% during the quarter, reaching EUR 1,832 million (Q2 2024: EUR 1 719 million). The net corporate loan portfolio grew by 2% during the quarter, reaching EUR 2 072 million (Q2 2024: EUR 2 024 million).

The volume of deposits at the Bank increased by EUR 257 million from the previous quarter and stood at EUR 5,716 million at the end of the quarter (Q2 2024: EUR 5,459 million). The volume of payment intermediaries' deposits grew by EUR 52 million during the quarter. Of the deposits, EUR 3,714 million were call deposits, EUR 1,650 million term deposits and EUR 352 million platform deposits. The volume of individuals' deposits was EUR 1 699 million as at the end of the quarter, having grown by 8% since the previous quarter.

The Bank's expense-income ratio was 32.7%%n Q3, increasing by 1.4 percentage points from Q3 2023 (31.3%).

I

Explanations to ratios (quarterly ratios have been expressed on an annualised basis)

Average equity (attributable to owners of the parent) = (equity as at the end of the reporting period + equity as at the end of the previous reporting period) / 2 Return on equity (ROE) = net profit for the quarter (share of owners of the parent) / average equity (attributable to owners of the parent) *100 (annualised) Return on assets (ROA) = net profit for the quarter (share of owners of the parent) / average assets*100 (annualised)

Net interest margin (NIM) = net interest income / interest-bearing assets, average * 100

Price spread (SPREAD) = interest yield from interest-bearing assets - cost of liabilities

Interest yield from interest-bearing assets = interest income / interest-bearing assets, average * 100

Cost of external capital = interest expenses / interest-bearing liabilities, average * 100

Cost/income ratio = total operating cost / total income * 100

Liquidity and capitalisation

The Bank's liquidity coverage ratio (LCR), as defined by the Basel Committee, stood at 193.6% as at the end of September (31 December 2023: 191.4%). In the third quarter, deposits received from deposit platforms decreased by 94 million euros.

The bank has a significant amount of financial intermediary deposits, which are fully covered by liquid assets and result in 100% in the LCR calculation. Thus, such deposits bring the LCR arithmetically lower without changing the actual liquidity situation. Excluding the financial intermediates' deposits the LCR is 379.0% (31.12.2023: 420.5%). The Bank recognises cash and bond portfolios as liquidity buffers. These accounted for 44% of the balance sheet (31.12.2023: 47%). The ratio of loans to deposits stood at 68% as at the end of the third quarter (31.12.2022: 64%).

LHV Bank includes as part of its own funds only that part of current year's profit, which the European Central Bank has given permission. Obtaining permission is done with the referrer, but applies retrospectively also for already reported quarter, which is why the capitalization ratios will also change and bank reflects them in the next report. At the moment, the European Central Bank has given permission to include the profit of the first quater 2024.

Bank runs every year internal liquidity assessment process (ILAAP), which is done both on statical and dynamical balance sheet modelling.

In assessment bank follows both regulative and internal liquidity ratios dynamics and fulfilment of limits. In dynamic assessment bank is following its own risk scenario.

Banks own funds based on CAD calculations at the end of September were EUR 564.1 million (31.12.2023: 550.7 mln eurot).

Bank is adequately capitalized at end of the reporting period, capital adequacy was 20.19% (31.12.2023: 22.07%), calculated according to CRR IV directive. Banks capital adequacy exceeds internal capital targets, which is 19.2%.

Both AS LHV Pank and its subsidiary AS LHV Finance are included into capital adequacy calculation.

Bank uses standard methodology for calculating credit and market risk capital charges and basic indicator approach calculating operational risk capital requirement. Bank has fulfilled all capital requirements in current reporting period.

Each year, an internal capital adequacy assessment process (ICAAP) is performed, the goal of which is to identify potential capital needs in addition to regulatory capital requirements.

Notes to the Condensed Consolidated Interim Financial Statements

NOTE 1 Accounting Policies

The condensed consolidated interim financial statements have been prepared in accordance with IAS 34 "Interim Financial Reporting", as adopted by the European Union. The condensed consolidated interim financial statements does not contain all the information necessary to be presented in the annual report. These condensed consolidated interim financial statements should be read in conjunction with the group's annual financial statements as at 31 December 2023. The same accounting policies and methods of computation are followed in the condensed consolidated interim financial statements as compared with the most recent annual financial statements.

There are no significant changes in risk policies of the group, all the results including estimates and judgement of expected credit losses are in line with principles described in group's annual financial statements as at 31 December 2023.

The financial figures of the condensed consolidated interim financial statements have been presented in thousands of euros, unless otherwise indicated. The condensed consolidated interim financial statements have been consolidated and include the results of AS LHV Pank and its subsidiary AS LHV Finance (65% interest).

Correction in classification of investing and operating cash flows

Management identified a classification misstatement related to financial investments. Such purchased and sales have been previously classified under net cash flow from/used in investing activities but as these assets are operating activities in nature then the cash flows from purchases and sales should be classified under net cash generated from/used in operating activities. The presentation has been corrected by reclassifying the affected cash flow statement line items for the prior periods as follows:

| | Q3 2023 | Increase/(Decrease) | Q3 2023 restated |
|--|---------|---------------------|------------------|
| Administrative and other operating expenses paid Cash flow from operating activities before change in | -8 724 | -431 | -9 155 |
| operating assets and liabilities | 48 858 | -431 | 48 427 |
| Net change in debt and equity securities | 0 | 69 108 | 69 108 |
| Other liabilities | -4 619 | 431 | -4 188 |
| Net cash generated from/used in operating activities | -79 274 | -69 108 | -10 166 |
| | | | |
| Net change in debt and equity securities | 69 108 | -69 108 | 0 |
| Net cash flow from/used in investing activities | 68 418 | 69 108 | -690 |

| | 9M 2023 | Increase/(Decrease) | 9M 2023 restated |
|--|----------|---------------------|------------------|
| Administrative and other operating expenses paid Cash flow from operating activities before change in | -26 314 | -1 276 | -27 590 |
| operating assets and liabilities | 130 756 | -1 276 | 129 480 |

NOTE 2 Segments

LHV Pank divides its business activities by 3 main segments: retail banking, corporate banking and financial intermediates. In addition, a separate segment is hire purchase and consumer finance in the subsidiary AS LHV Finance. Financial intermediates segment also includes the fee sharing on the basis of the cooperation agreement concluded with LHV Bank Ltd. Other activities (not allocated to any segments) include Treasury and the result of activities related to companies belonging to AS LHV Group consolidation Group. LHV Pank ise largest company in LHV Group, meaning that many teams like HR, internal audit, IT maintenance etc are handled centrally by Pank for all or most of the LHV Group's companies.

Loans to related parties were 30.09.2024 EUR 37 018 thousand (31.12.2023: 28 579). Loans have been given out on market terms.

ECL has increased by EUR 7 014 thousand, mostly related to Stage 3 loans. Several manufacturing companies financials have weakened and we have decided to reclassify them into Stage 3 despite they are servicing the loans without issues.

NOTE 6 Fair Value of Financial Assets and Liabilities

To determine the fair value, future cash flows are discounted based on the market interest curve. The below table provides an

overview of the assessment techniques, which depend on the hierarchy of assets and liabilities measured at fair value:

| | IFRS 9 | Level 1 | Level 2 | Level 3 | Total |
|---|-------------|---------|-----------|-----------|-----------|
| | measurement | | | | |
| 30.09.2024 | | | | | |

As of September 30, 2024, the liquidity portfolio includes only bonds in the amount of EUR 238 098 thousand is reflected in the amortised cost and the loss from the revaluation of the portfolio is reflected in the income statement in the line Impairment losses on loans and bonds in the amount of EUR 26 thousand. The fair value of the bonds reflected in the amortised cost as of 30.09.2024 is EUR 238 804 thousand.

Hierarchy levels:

- 1. Level 1 the price quoted on active market
- Level 2 a technique which uses market information as input (rates and interest curves of arms-length transactions)
- Level 3 other methods (e.g. discounted cash flow method) with estimations as input

Cash and balances with central banks are treated as Level 2 and as their duration is very short, then there is no difference between balance sheet and fair value.

Bonds in FVTPL are included under Level 1, as these are accounted based on market rates, but others in Level 2 as reference rates are used for calculating fair value.

Loans are issued in the bank's business segments on market conditions. Therefore, the fair value of loans does not materially differ from their carrying amount as at 30 September 2024 and 31 December 2023. In determining the fair value of loans, considerable management judgements are used (discounted cash flow method with current market interest is used for the valuation). Loans issued are thus categorised under hierarchy level 3.

Other receivables from customers, along with accrued expenses and other current receivables have been generated in the course of ordinary business and are subject to payment over a short period of time. Their fair value does not thus differ from the carrying amount. These receivables and payables do not bear any interest. The fair value of accounts payable, accrued expenses and other payables is determined based on hierarchy level 2.

Customer deposits with fixed interest rates are mostly short-term with the deposits priced pursuant to market conditions. The fair value of the deposits determined via discounting future cash flows does not thus materially differ from the carrying amount. Customer deposits are thus categorised under hierarchy level 2.

All the Loans received, securities issued and subordinated loans are received in 2019-2024. All instruments were issued on market terms and considering the movements in loan and interest market, we can say that the market conditions are similar as they were when issuing the loans or the maturity/call date is so close, that the fair value of the loans does not materially differ from their net book value. Loans issued are thus categorised under hierarchy level 2.

Swaps and forwards are instruments, where the fair value is determined via the model-based approach by using the inputs available on the active market. The fair value of such non-market derivatives is calculated as a theoretical net present value (NPV), by using independent market parameters and without assuming the presence of any risks or uncertainties. The NPV is discounted by using the risk-free profitability rate available on the market.

LHV has a cooperation with IB, providing our customers access to IB's trading platform. This collaboration allows our customers to leverage their investment portfolios by using equities as collateral to obtain loans, which can then be reinvested into additional equities. IB employs sophisticated monitoring systems that closely tracks customer's positions. These systems are designed with pre-emptive thresholds to ensure proactive measures are taken well before the collateral's value approaches critical levels. Specifically, the system intervenes before the collateral value falls below the outstanding loan balance, prompting customers to either reduce their loan balance or provide additional collateral. If customer does not take the necessary corrective action, the system is programmed to automatically liquidate the collateral to satisfy the outstanding loan.

The loans extended to our customers, are managed with a high degree of prudence, including the application of a "haircut" to the collateral value, ensuring that the collateral always exceeds the loan amount. LHV has entered into an agreement with IB, wherein we assume responsibility for any shortfall. Should the proceeds

from collateral liquidation be insufficient to cover the loan, the platform charges the deficit to LHV. This arrangement underscores our commitment to safeguarding the financial integrity of our clients' leveraged investments.

To date, there has not been any instance where LHV has been required to cover a loss under this arrangement.

The fair value of these guarantees is considered to be zero, based on the following methodology:

The fair value of the guarantee is calculated as the discounted value of the Expected Loss (EL), where:

EL = Probability of Default (PD) x Loss Given Default (LGD)

LHV considers the LGD for these loans to be zero euros, due to the highly automated processes employed by IB. If either the PD or LGD is considered zero in this calculation, the resulting fair value of the guarantee is also zero.

NOTE 13 Contingent Liabilities
